SUMMARY

Full-stack software engineering undergraduate (B.E. Information Science, GPA 9.26/10) with 2 simultaneous production internships across web, desktop, and mobile platforms. Proficient in Java, JavaScript, Python, React, and Node.js/Express, with proven experience building, testing, and shipping REST APIs, AI-powered features, and cloud infrastructure at scale. Thrives in fast-paced, cross-functional environments — comfortable owning features end-to-end from design through deployment and QA.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), Python, C, Swift

Frontend: React.js, HTML5, CSS3, Electron (cross-platform desktop)

Backend: Node.js, Express.js, REST API design, JWT, OAuth 2.0 (Google, Microsoft, LinkedIn)

Databases: MongoDB, MySQL

Cloud & DevOps: AWS (EC2/S3), Google Cloud Platform, Git, Postman, CI/CD pipelines

AI / ML: TensorFlow, HuggingFace Transformers, OpenCV, Generative AI & prompt engineering

Testing & QA: Unit testing, integration testing, API validation (Postman), cross-browser debugging

INTERNSHIP EXPERIENCE

Product Developer Intern, Spiked AI

01/2026 – Present | Remote, Los Angeles CA

- Architected a cross-platform Electron desktop app (Windows & macOS) supporting 2 live audio capture modes (Zoom/Meet + offline), reducing transcript delivery latency to under 1 second per audio segment.
- Built Node.js/Express backend handling OS-level permission flows (microphone, screen recording) across 3 OS environments, cutting new-user onboarding failures to 0 for permission-related drop-offs.
- Integrated Recall AI Desktop SDK enabling real-time audio streaming, reducing manual setup steps from 5 to 1 for end users by automating SDK initialisation on first launch.
- Wrote 15+ integration test cases covering audio capture and permission flows across all platforms, contributing to a 3-person squad across 2 sprint cycles with 100% on-time feature delivery.

Product Developer Intern, einsteini.ai

09/2025 – Present | Remote, Los Angeles CA

- Developed and shipped browser extensions for LinkedIn and X (Twitter) using Chrome Extension APIs, resolving 4 cross-platform bugs that had blocked ~30% of users from core functionality.
- Designed and implemented a full Stripe subscription system (5 payment states, webhook handling, free-trial logic, automated billing), directly enabling the product's first paid revenue stream.
- Led AWS-to-GCP infrastructure migration across 6 services after a security incident, restoring 100% system uptime within 48 hours with zero data loss.
- Debugged and resolved 3 critical OAuth 2.0 authentication failures (Google, Microsoft, LinkedIn) that had blocked new user registration for 2+ weeks, reducing login error rate to 0%.

PROJECTS

Mindful AI 🧠, *Multimodal Emotion Detection*

03/2025 – 03/2025

- Built a real-time AI pipeline fusing 3 simultaneous signal types (voice, facial expression, heart rate) into 1 unified emotion output, achieving under 2-second end-to-end latency on standard hardware.
- Ranked 6th nationally out of 100+ teams (top 6%) at AI Verse Hackathon, BMSCE — fully working prototype delivered within a 72-hour sprint.

Quizmify 🧠, *Full-Stack Quiz Platform*

01/2026 – 02/2026

- Designed 8 REST API endpoints (quiz creation, participation, scoring) supporting concurrent multi-user sessions with 0 race conditions and instant result delivery post-submission.

Criminal Case Management System 🧠, *MERN Stack, JWT, RBAC*

04/2025 – 06/2025

- Built a 3-role access-controlled legal platform with 12+ tested REST endpoints, with a React dashboard with advanced filtering that cut case retrieval time by ~70% vs. prior manual process.

EDUCATION

B.E. Information Science, Jyothy Institute of Technology, VTU

06/2027 | Bengaluru

- CGPA: 9.26 / 10

Class XII (CBSE), Sri Chaitanya Techno School

2023 | Bengaluru

- 88.4%

Class X (CBSE), Sri Chaitanya Techno School

2021 | Bengaluru

- 91.6%

ACHIEVEMENTS

6th Place nationally, AI Verse Hackathon, BMSCE

01/12/2024

- top 6%, 100+ teams (72-hour sprint)

2nd Place, CSI Coding Challenge, Jyothy Institute of Technology

Active on LeetCode & GeeksforGeeks (DSA)
